Akebono OB301N Automatic Banding Machine

Year: 2007

Type: OB-301 N

S/N 2027

Banding Machine Description:

Using a heat-sealing system, this machine will band with both paper and plastic banding material interchangeably

Operation of this bander is so simple it can be taught over the phone

Comes complete with automatic photo eye, foot pedal and positioning guide plates

Can be put into service out of the box to easily produce professional looking bands

Wide arch allows for an array of sized material to be banded

Allows for multiple bands on one product without removing from machine
