Komfi Amiga-36 Laminating

- Year: 2017
- It is intended for lamination of small and long circulations
- Size: B3.
- The ideal for laminating digital and offset prints.
- Professional quality lamination.

Features and Benefits:

- Automatic control of the entire lamination process,
- Touch screen display provides comfortable control of the machine
- Electronic control of sheet transition amount
- Laminating cylinder heated by an infrared emitter
- Processor-controlled feeder head and additional separation airflow ensure stable sheet loading;
- Precise and stable overlap at any laminating speed

Specifications:

- Max. speed of lamination: 20m/min

- Max. output of the feed. head: 8000 sheets/h
- Min. sheet dimensions: 20 x 20 cm
- Max. sheet dimensions: 36 x 70 cm
- Paper weight paper thickness: 115-350 g/m² max 0.5 mm (with overlap > 0) max 1 mm (with overlap < 0)
- Max. paper pile: 40 cm
- Thickness of laminating film: 24-50 um
- Kind of laminating film: OPP, PET, Nylon, PVC
- Time of laminating roll warm up: Approx 3.5 min
- Sheet overlap accuracy: ± 1 mm
- Machine dimensions incl. table (LxWxH): 220 x 79 x 152 cm
- Air supply: Min. 6 bar
- Consumption of compressed air: 65 l/min
- Max. consumption of compressed air: 95 l/min
- Max. pressing force: 12.8 kN
- Max. linear nip pressure: 35.5 N/mm
- Max. consumption of electricity: 6 kW
- Power supply: 6 kVA
- Machine weight: 360 kg
