Polar Jogger RA-4

Automatic Jogger (vibrating table system)

Paper stack jogging system with integrated weighing scales, designed to reduce operator physical workload.

Integrated with a paper weighing system, this unit enables full production control from stack preparation to final cutting.

Description:

- Fully Automatic jogging table with roller system for air removal from the paper stack for perfect alignment,
- Pneumatic side guides ensure precise and stable stack positioning,
- After the jogging process, the roller removes air from the paper stack
- Integrated workflow with paper weighing scales for improved production control,
- Designed to significantly reduce operator workload and manual handling.

Technical specifications:

- Table size: 74 × 102 cm,
- Minimum stack height: 30 mm,
- Maximum stack height: 165 mm,
- Table height adjustment: 860 – 1050 mm.

Paper Weighing Scales:

- Type: industrial platform scales,
- Purpose: accurate weight control of paper stacks,
- Precise weighing before and after cutting operations,
- Easily integrated into production workflow for maximum efficiency.

Advantages of the System:

- Complete workflow: jogging → cutting → weighing control,
- Increased productivity and accuracy,
- Reduced physical strain on the operator
- Suitable for printing houses and packaging production
